

Public Notice of Continuing Use of Sign Language Admissions
Of Nazi Agents in the USA Government

I am sitting down again to document the ongoing use of loud vehicles to 'drive' messages into our home as I move about my daily life.

The reason for this writing is the continuation of an ongoing use of 'rice' to symbolize 'our ice' that these satanic nazis are using to invert the symbolism of Dante's Inferno to 'ice' that 'freezes' the innocent people of the world while allowing the people that compose the body of the 'devil' to run wild with their ability to do as they please and remain unaccountable for their actions.

Symbolically, the moral people of the world should be of such abundance that they are able to 'freeze' the evil of the world to prevent it from spreading and committing evil actions to cause harm to our life.

I am writing to document the ongoing use of 'rice' and also specifically the 'lid' for that 'rice' to place a 'lid' on our ability to spread the truth about what evil people are doing from inside of the American institutions of government.

I am not making up these admissions. I am only conveying to you the ongoing use of symbolic imagery to 'mirror' my research back to me in unsettling ways. As I have conducted this religious research, the illegal spying, illegal stalking, and illegal threatening ways of this gang of criminals has continued to use this imagery to 'speak' a language of evil that I understand from my work with the Bible, the wheels of the Zodiac, the I Ching, and the 10 Heavenly Stems and 12 Earthly Branches.

There are numerous conclusions that can be drawn. For example, this ancient technology has been used by evil gangs for thousands of years now to cause harm to innocent people in the world. And, the conclusion can be drawn that the illegal spies that are witnessing my work are simply learning this evil, as it is being uncovered, and they are adopting it into their own independent plots and devices.

Either way, I am alerting the world that I am witnessing an evil gang of criminals that are spying on my life and my work. This gang is symbolically 'speaking' my work back to me in a mirrored echo, and it is exhibiting an evil intention to cause harm to others while suppressing any voice that is attempting to expose the evils that these people truly represent.
